

Retraction

RETRACTED: “Atefeh Badry and Pouya Pouladsaz, Highly Selective and Sensitive Thiocyanate PVC Membrane Electrode Based om Modified Zeolite ZSM-5, *Int. J. Electrochem. Sci.*, 6(2011)3178-3195”

Published: 10 July 2020

This article has been retracted at the Editor-in-Chief and Dr Nezamzadeh-Ejhieh requests. Main reason for the decision was similarity to previously sent manuscript to consideration in *Desalination* journal and later accepted and published (Surfactant modified ZSM-5 zeolite as an active component of membrane electrode towards thiocyanate, *Desalination*, 281 (2011) 248-256)).
